

Controlling Path Generation

1. Start CAMplete TruePath
2. Go to Tools > Options
3. Click Editor
4. On the editor page, switch all of the Auto Post Processing Options to "Do Nothing, I will Repost Them Later"

5. Click Close to close the dialog
6. Close CAMplete TruePath and restart it
7. Now whenever you load files or make changes, the tool path will not be posted
8. The G-Code will appear in ITALICS, indicating that it is out of date:
